

Take the Road to Vehicle Savings

Clean Vehicle Savings Programs

Stack up savings when you scrap and replace older, more polluting cars with cleaner, advanced technology vehicles. The greatest savings are available to lower-income households living in eligible disadvantaged communities who purchase or lease a new plug-in hybrid (PHEV) or battery electric vehicle (BEV).

Clean Cars for All (CCFA)

This program assists lower-income consumers in purchasing **new** or **used**, fuel-efficient vehicles. This includes residents of eligible communities in the Bay Area.
